

# BETTER MOBILITY TODAY

## RAIL TRANSPORT INFRASTRUCTURE

### WHAT?

ENGIE offers turnkey transport solutions using the wide range of skills at the group's disposal:

- **Designing** of urban public-transport and railway infrastructures,
- **Integration** of the systems that make up a transport infrastructure,
- **Electrification** of railway lines,
- **Railway signalling,**
- **Communication systems,**
- **Network monitoring,**
- **Operation-control centre.**

### WHY?

- Between 2001 and 2012, **the share of public transport increased by 20%** in all urban transport in developed countries.
- **60% of the world's population will live in towns in 2050.**

- **Public transport** by rail helps to improve passenger transport while having a smaller environmental impact.
- **ENGIE offers innovative financing methods** to adapt to the specific constraints of each geographical region.

### FOR WHOM?

- Regional authorities, like Dijon (France) and Cuenca (Ecuador)
- Urban transport operators like RATP and Transpole (France), or STIB (Belgium)
- Railway companies like SNCF
